

**BLUE GIANT INNOVATIVE SOLUTIONS  
FOR LOADING BAYS & DOCKS**

**NEW PRODUCTS UPDATE!**

**Blue Giant Zero Ground Level Scissor Lift**

Blue Giant Zero Ground Level Scissor Lifts are designed for use when powered fork trucks are not available or accessible in a work area. These tables permit floor level loading/unloading access by pallet jacks and other material handling equipment. The front approach edge of the platform is bevelled to make loading/unloading of the

**Blue Giant Double Wide Scissor Lift**

Blue Giant Double Wide Scissor Lift Tables provides enhanced load stability and support. Its heavy-duty design allows for higher load capacities ranging from 907 kg to 2,722 kg. With vertical travel ranging from 610mm x 1,524mm, these units are built to meet all your application requirements.

**Blue Giant Tandem Scissor Lift**

Blue Giant Tandem Scissor Lift Tables are heavy-duty, hydraulic scissor lift tables for applications requiring longer platform sizes. These lift tables feature a longer length platform to meet the application needs of manufacturing, processing and distribution operations where materials of greater length are being handled.

**Advantages of dealing with a specialist Australia-wide**

It's all about your business and your customers, especially when you are in a competitive environment such as organising tenders and projects. This is where A B Equipment can help you with Loading Bay/Dock requirements, including free advise, site inspection, technical drawings as well as prompt service and guarantees on all products and work supplied.

**What if it needs to be customised?**

This is not a problem, as A B Equipment also manufacture specialty Dock products upon request, even in Heritage listed buildings.

**For further information please contact the following person in your state.**
